Member Management → Click User → click “Add” to add fingerprint
→ Start to add → register fingerprint twice

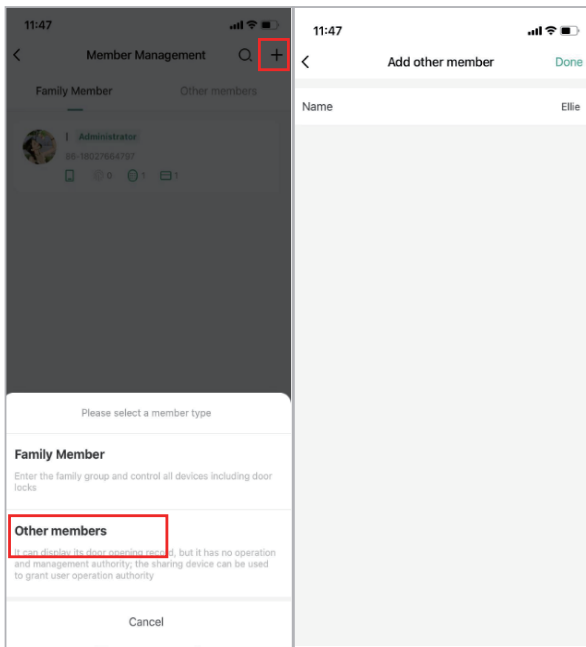

Add successfully, fill in name, click “Done”.

- 9 Add password by inputting 6 digits code or clicking generated code randomly, and fill in code name, then click "Save".
- 10 Add card by clicking start to add, swipe one card within 60 seconds, add card successfully, then fill in card name and click "Done".

- 11 Add Other Member by clicking “+”, then choose “Other members”, then input the related information and click “Next step”.

- 12 Add Temporary code by clicking Add Temporary Password “Limited time”, add effective time, invalid time and password name, then click “Get Password”, then click “Done”.

The image displays two sequential screenshots of a mobile application interface for adding a temporary password.

Left Screenshot: The screen is titled "Add temporary password" with a back arrow and a "Record" link. Under "Password Type", the "Limited time" option is selected (highlighted with a red box), with "single time" and "Empty" as other options. Below this, there are input fields for "effective time" (2023/11/30 11:00), "Invalid Time" (2023/11/30 12:00), and "Password name" (Ellie). A note at the bottom states: "Use at least once within 24 hours after it takes effect, otherwise it will be invalid". A green "Get password" button is at the bottom.

Right Screenshot: The screen shows the generated temporary password "9394683545" with a "Copy" link. Below the password, the "effective time" is 2023-11-30 11:00 and the "Invalid Time" is 2023-11-30 12:00. The "Password name" is Ellie. A note states: "Use at least once within 24 hours after it takes effect, otherwise it will be invalid". A green "Done" button is at the bottom.

Notice: “Custom” password type can set Password Name, Effective Time and Repeat Valid Time.

- 13 Add a guest password, select Custom, fill in password name, click Get Password, and done.

The image displays two sequential screenshots of a mobile application interface for adding a temporary password.

Left Screenshot:

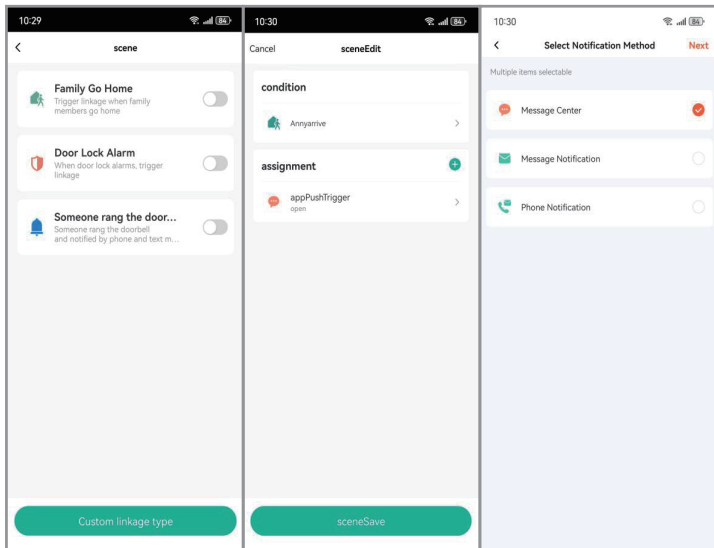

- Header:** 11:49, signal strength, battery icon. Navigation: Back arrow, "Add temporary password", "Record".
- Password Type:** Three options: "Limited time", "single time", and "Custom" (highlighted with a red box).
- Input Section:** "Please enter 6 digits password". A box displays the randomly generated password "6 5 6 4 3 0" with a "Randomly generated" label and a "Copy" link below it.
- Fields:**
 - effective time: 2023/12/01 16:31 >
 - Invalid Time: 2023/12/31 16:31 >
 - Password name: Liu
 - Repeat: Toggle switch is turned on.
 - Start Time: 16:34 ↗ (with a location pin icon), 08:00 >
 - End Time: 18:00 >
- Day Selector:** A row of seven circular buttons for days of the week: Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday. "Monday" through "Friday" are highlighted in green.
- Action:** A large green "Save" button at the bottom.

Right Screenshot:

- Header:** 11:49, signal strength, battery icon. Navigation: Back arrow, "Add temporary password", "Record".
- Display:** The password "656430" is shown in a large font within a dashed border.
- Fields:**
 - effective time: 2023-12-01 16:31
 - Invalid Time: 2023-12-31 16:31
 - Password name: Liu
 - Repeat: Monday, Tuesday, Wednesday, Thursday, Friday 08:00 18:00
- Action:** A large green "Done" button.

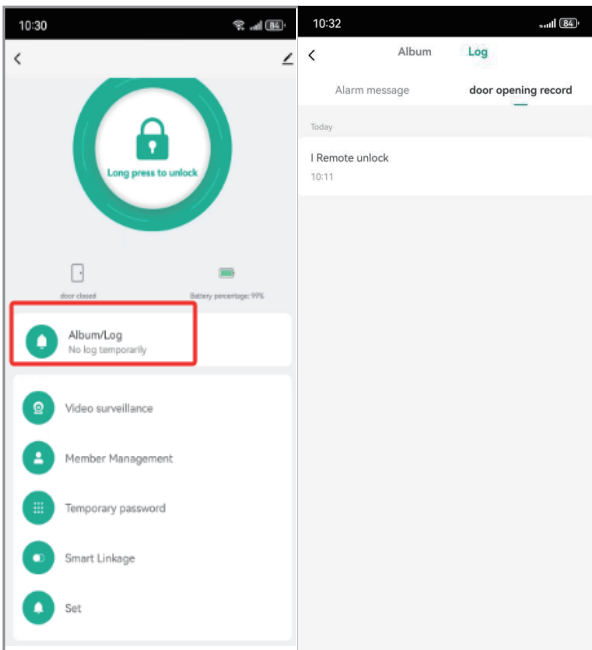

Note: Guest password can only be used once and is valid for 6 hours.
